**Catalog Update**

**Correction:** We have made two corrections and one addition to our 2001 PDQ Torque Converter Catalog. The corrections occur in the TH400 and Allison torque converter sections. The following is a list of the changes:

**Addition: TH400 section page 14**

GM8HDB Standard (Gas) Stall Speed

GM9HDB (Heavy Duty Bearing, Fully Brazed, Enclosed bearing)

**Correction: TH400 section page 14; Allison section page 23**

TC275-3L Standard (Gas) Stall Speed - With Flanged Pump Hub

TC275-6L (Heavy Duty Bearing, Fully Brazed, Enclosed bearing)

**Correction: Allison section page 23 (TC290RV for Allison 290 gear ratio)**

TC290-3L Low (Diesel) Stall Speed - With Flanged Pump Hub

TC290-6L (Heavy Duty Bearing, Fully Brazed, Enclosed bearing)

**Notes:**

GM8HDB, GM9HDB - Use for light duty Diesel and Gas applications.

GM8HDB, GM9HDB - Have Metric thread pitch. U.S.S. thread pitch is not available.

GM8HDB, GM9HDB - Have spot welds on the mounting pads.
